Rongxin and Karasaka will go to London to investigate the Phantom Looter.

That case, you'll be separated into two cases.

Original and Gill will stay here to guard Prison Island.

Shit

Sorry, sis.

Patrol dog? But what they're doing is way more fun!

Yes, yes, you're too slow.

We're going.

See ya, you greedy son.

I'm really gonna kill you, I just don't know if.

Sure.

Oh!

Let's go, Shu-chin. If we come back before Rongxin does, you get not dinner.

Any other details are unknown.

We have managed to drive them into this corner, but...

We have devised of our people cutting off their escape route.

This one might be joining with us.

As long as the enclosure is made of humans, they can suck their blood and break through it.

Ugh-

You'll be in our way.

Stupid, stay here. The two of us are fine on our own.

If they took  
your friend, their
